

July 20, 2017
Jupiter Telecommunications Co., Ltd.

J:COM SUBSCRIBER FIGURES (June 2017)

Total consolidated subsidiaries : 28 subsidiaries; 75 systems: (Rounded to the nearest hundred)

As of June 30, 2017 ^{*1}	Homes Passed ^{*2}	21,268,700	
	Subscribing Households	Cable Television	3,748,100
		High Speed Internet Access	3,492,600
		Telephony ^{*3}	3,802,900
	Total Subscribing Households ^{*4}	5,333,000	

*1 Because J:COM has consolidated Oita Cable Telecom Co., Ltd. on June 28, 2016, its subscribers are included in our household numbers. 307,800 households are included in the homes passed, 78,100, 62,400, and 43,700 subscribing households in CATV, high speed Internet access, and telephony, and 110,400 households in the total number of subscribing homes are included respectively. Oita Cable Telecom Co., Ltd. calculates subscribing households using logic different from J:COM Group. In the future when Oita Cable Telecom Co., Ltd. starts applying J:COM's logic, the above figures may change.

*2 The number of serviceable households or "homes passed" in J:COM franchise areas.

*3 Including the number of Cable-plus Phone service subscribers offered by YOKOHAMA CABLE VISION Inc.

*4 Number of households subscribing to one or more of J:COM's services

About Jupiter Telecommunications Co., Ltd.

Established in 1995, Jupiter Telecommunications Co., Ltd.(J:COM) is Japan's largest multiple system and multiple channel operator. In system operation, J:COM provides cable television, high speed Internet access, telephony, mobile, and electric power service to customers through 28 consolidated subsidiaries at the local level serving 5.33 million subscribing households in Sapporo, Sendai, Kanto, Kansai, and Kyushu-Yamaguchi regions. The number of serviceable households or "homes passed" in J:COM franchise areas is 21.27 million. In channel operation, J:COM invests in and operates 17 thematic channels which are provided to CATV, satellite and telecom operators.

※ The above household figures are as of June 30, 2017.
