Name of Representative	Shuichi Mori, President and Representative Director

**NOTICE REGARDING THE DATE OF RECEIVING PAYMENT OF PROCEEDS FROM SELLING FRACTIONAL NUMBER OF SHARES**

Jupiter Telecommunications Co., Ltd. (the “Company”) has set the date of receiving payment of proceeds from selling fractional number of shares as follows, following the press release dated August 30, 2013 titled “NOTICE REGARDING THE DATE OF RECEIVING PAYMENT OF PROCEEDS FROM SELLING FRACTIONAL NUMBER OF SHARES”, which informs the plan that in late October the Company will pay to the shareholders whose names were recorded in the latest register of shareholders as of August 1, 2013 an amount equal to the amount derived by multiplying 123,000 yen (the amount equal to the tender offer price per common share of the Company in the tender offer conducted for the Company’s share certificates commencing February 27, 2013) by the number of the Company’s common shares previously held by each holder of Common Shares Subject to Wholly Call.

The Company will send a “calculation statement of the fractional share disposal proceeds” on October 29, 2013 to the registered addresses of shareholders who have designated their dividend receiving accounts and pay the amount by wire transfer on October 30, 2013 to their designated accounts. For shareholders who have not designated their dividend receiving account, the Company will send via post on October 29, 2013, together with the “calculation statement of the fractional share disposal proceeds,” a “receipt of payment of fractional share disposal proceeds” to their registered or otherwise designated addresses, so such shareholders are requested to visit their nearest Japan Post Bank (including its head office or any branches or local offices nationwide) or Japan Post (that offers bank agency services) and receive the fractional share disposal proceeds within the designated payment period (from October 30, 2013 to December 27, 2013).

Please note that the above dates are based on the current schedule only, and that the timing of the actual payment or other procedures may be subject to change depending on the progress of the payment procedures or for other reasons.
